

SAN HEALTH CHECK

Optimize your storage area network to maximize performance and prevent downtime

Deliverables

- SAN Health Check Report and Topology
- Recommendations to Improve and Optimize your SAN
- Training

Benefits

- Optimize your SAN for maximum performance
- Better utilize capacity and plan for growth
- Stretch the life of your SAN to get the most out of your IT investment
- Get configuration recommendations from the Govplace SAN experts
- Turnkey solution to take the burden off your IT staff
- Leverage Govplace's technical knowledge, public sector experience and industry best practice expertise to optimize your SAN

Typical Areas of Review Include:

- Server HBA, SAN switch firmware levels
- Fiber switch security, zoning and configurations
- SAN host configurations, disk groups, enclosures, LUN sizing, port presentations, and logging and controller usage
- Controller thrashing, uneven workloads and bottlenecks

The Govplace Difference

- Exclusive public sector focus and experience in assessing, designing, deploying, and managing SANs for government and education entities
- Extensive technical knowledge of SAN optimization
- Highly trained and certified Govplace consultants can quickly diagnose problems and suggest solutions
