

## VIRTUAL INFRASTRUCTURE JUMPSTART

Quickly, safely, and smoothly install, implement, and utilize your virtual infrastructure to realize the business benefits immediately

### Deliverables

- An interactive proof-of-concept workshop to facilitate knowledge-transfer
- Installation of a single VMWare ESX Server and a single VMWare VirtualCenter management server to facilitate discussion and testing
- Set up of VMWare P2V migration environment
- Guidance with several test P2V migrations
- Best-practices and training for VMWare ESX Server, VirtualCenter and P2V

### Benefits

- Quickly, safely and smoothly install, implement and utilize your virtual infrastructure with the help of highly trained Govplace VMware Certified Professionals (VCPs)
- Immediately realize the business benefits of your virtual infrastructure.
- Learn industry best-practices on how to administer the operations of your virtual infrastructure from Govplace experts that have installed and optimized virtual infrastructures in many public sector entities
- Mitigate the risk to mission-critical applications and avoid pitfalls associated with server virtualization by leveraging experienced Govplace consultants

### The Govplace Difference

- Exclusive public sector focus and experience installing, configuring and optimizing many virtual infrastructures for government and education entities
- VMware Authorized Consultant (VAC) that shares service methodologies, best practices and solutions directly with VMware
- Consultants are highly trained, experienced VMware Certified Professionals (VCPs)
